Professional Summary

Frontend Developer with 4+ years of professional and freelance experience building responsive, production web applications with React.js, Next.js, TypeScript, and JavaScript. Experienced in creating interactive, animated user interfaces, including Vanta.js and Three.js visual effects, and in integrating frontends with REST APIs, authentication, and PostgreSQL-backed Django backends. Also ships cross-platform mobile apps with React Native and Capacitor through Android and iOS release. Works directly with clients and cross-functional teams, owns features from implementation through production deployment, and uses AI-assisted tools (Claude, GitHub Copilot, Cursor) to speed up implementation and debugging. B.E. in Computer Engineering.

Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, Component-Based UI Development
- **Animation & Interactive UI:** Vanta.js, Three.js, CSS3 Transitions and Animations, Interactive UI Development
- **Backend & APIs:** Python, Django, Django REST Framework, Flask, FastAPI, REST API Integration, GraphQL, JWT, OAuth, Authentication
- **Mobile:** React Native, Capacitor, Expo, Android, iOS, Google Play Console, App Store Connect, AAB/APK Builds, App Signing
- **Databases:** PostgreSQL, MySQL, Supabase, MongoDB, SQL, Database Design
- **DevOps & Deployment:** Git, GitHub, Docker, Vercel, CI/CD Workflows, Production Deployment
- **AI-Assisted Development:** Claude, GitHub Copilot, Cursor, OpenAI, Gemini, AI-assisted debugging and code generation
- **Tools:** Figma, Postman, VS Code, Xcode, Android Studio, npm, Yarn
- **Engineering Practices:** Debugging, Root Cause Analysis, Code Review, Technical Documentation, Agile Collaboration

Professional Experience

Freelance Frontend / Full Stack Developer *June 2023 – Present*

- Built and maintained production web applications with **React, Next.js, TypeScript, and JavaScript**, delivering responsive, interactive interfaces integrated with REST APIs, PostgreSQL, MySQL, and Supabase.
- Implemented animated visual effects with **Vanta.js and Three.js**, including an animated background in a Next.js and TypeScript project.
- Developed cross-platform mobile applications using **React Native and Capacitor**, integrating REST APIs, authentication, and device capabilities.
- Managed Android and iOS release workflows, including AAB generation, app signing, versioning, Google Play Console releases, Xcode builds, and App Store deployment troubleshooting.
- Built Django REST APIs and backend services for authentication, user management, and business workflows consumed by web and mobile frontends.
- Diagnosed and resolved production issues across frontend, API, authentication, database, and deployment layers.
- Worked directly with clients and product stakeholders to translate requirements into production features, communicate technical decisions, and own delivery from development through release.
- Used Git, GitHub, Docker, Vercel, and Postman, along with AI-assisted coding tools, to develop, test, debug, and ship applications faster.

Django Developer, Khatra Tech *January 2024 – January 2025*

- Developed and maintained production backend services using **Python, Django, and Django REST Framework**, delivering REST APIs consumed by web and mobile clients.
- Integrated frontend applications with Django REST APIs and collaborated with frontend developers to deliver complete end-to-end features.
- Designed API endpoints, authentication, authorization, and database workflows with **PostgreSQL and MySQL**, maintaining data integrity across production applications.
- Investigated and resolved API, authentication, database, and production issues using structured root-cause analysis.
- Used Git-based workflows for feature development, bug fixes, and code review, and worked with stakeholders and developers to estimate work and deliver maintainable features.

Selected Projects

Handsy – Production Marketplace Platform *React, Next.js, TypeScript, Django, REST APIs, PostgreSQL*

- Built and maintained a production marketplace connecting customers with craftsmen, using a React/Next.js/TypeScript frontend and a Django backend.
- Implemented multilingual functionality and integrated REST APIs for authentication, user profiles, and marketplace workflows.
- Diagnosed and resolved production UI, API, authentication, and data integration issues across the full stack.

DataBrakes – Production Data Processing Platform *React, Next.js, TypeScript, Django, PostgreSQL*

- Developed a production data processing platform with a React/Next.js frontend, Django backend services, and PostgreSQL storage.
- Built frontend data preview, history, pagination, and table workflows backed by REST APIs for reliable data retrieval.
- Implemented file ingestion for CSV, Excel, JSON, and ZIP data with validation and error handling, and debugged issues across the frontend, API, and database.

Victory Bistro Ultra Lounge – Mobile Application *React, Capacitor, Android, iOS, REST APIs*

- Developed a cross-platform Android and iOS application with web technologies and Capacitor, integrated with backend REST APIs.
- Managed production builds, app signing, versioning, and Google Play Console releases, and resolved Xcode, CocoaPods, and store submission issues.

Mock Interview Evaluation System – AI Application *Python, Django, React, LLM APIs, REST APIs*

- Built an AI-assisted interview evaluation app with a Django backend, React frontend, and LLM-based evaluation workflows.
- Integrated AI services for automated response analysis and delivered evaluation results through the application interface.

Education

Bachelor of Engineering in Computer Engineering *2022 – 2026*

National College of Engineering, Lalitpur, Nepal

Relevant Coursework: Data Structures and Algorithms, Database Systems, Operating Systems, Software Engineering, Web Technologies, Computer Networks, Database Management Systems

Higher Secondary Education (Science) *2021*

Gorkha International Public School, Nepal

Additional Information

- **Location:** Lalitpur, Nepal; available for remote work and on-site in Kathmandu Valley
- **Work Authorization:** Nepal
- **Languages:** English (Fluent), Nepali (Native), Hindi (Fluent)
- **Availability:** Available for part-time and full-time opportunities
