PROFESSIONAL SUMMARY

React and TypeScript developer with 3+ years of experience delivering production web applications. Builds reusable, responsive components, integrates third-party APIs, and maintains customer-facing marketplace and data-processing workflows. Combines Next.js, Redux, automated testing and full-stack debugging with independent feature ownership and clear communication in distributed teams.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, Context API, responsive UI, accessibility, cross-browser compatibility

APIs & backend: REST APIs, Node.js, Express.js, Python, Django, Django REST Framework, JWT/OAuth, third-party integrations, WebSockets

Data & delivery: PostgreSQL, MongoDB, Jest, React Testing Library, Cypress, Git/GitHub, code review, CI/CD, Docker, Vercel, Agile/Scrum

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer | Self-Employed
June 2023 - Present

- Deliver production web applications using React/Next.js, TypeScript, Node.js/Express and Python/Django, covering requirements, implementation, testing, deployment and maintenance.
- Build reusable, responsive interfaces and integrate REST APIs, authentication, authorization and third-party services; resolve frontend, state-management and API integration issues.
- Develop REST services with validation, business logic, database access and error handling; design PostgreSQL and MongoDB data models, queries, indexes and migrations.
- Use Git-based collaboration, code reviews, automated tests, CI/CD and cloud deployment workflows; communicate progress, trade-offs and blockers asynchronously with remote clients.

Full Stack Developer | Khatra Tech
January 2024 - January 2025

- Built Django REST APIs and relational data models around React frontend requirements and production customer workflows.
- Partnered with frontend developers to resolve API data-shape mismatches and integration bugs, and coordinate changes across the frontend and backend.
- Supported authentication, authorization, validation, testing, deployment and ongoing maintenance of production applications.

SELECTED PRODUCTION PROJECTS

Handsy | Production Marketplace | gohandsy.com

- Built React/Next.js and TypeScript interfaces; integrated Django REST APIs for authentication, user management and service workflows. Resolved integration issues and supported post-launch troubleshooting.

DataBrakes | Data Processing Platform | dev.data-brakes.com

- Built React/Next.js and TypeScript upload workflows for CSV, Excel, JSON and ZIP, with validation, error handling, previews, history, pagination and data tables. Integrated APIs and debugged rendering and state issues.

Antora | Production Web Interfaces | antora.com

- Built and maintained responsive React/Next.js and TypeScript interfaces using reusable components and maintainable frontend architecture.

EDUCATION

Bachelor of Engineering in Computer Engineering | Completed 2026
National College of Engineering, Lalitpur, Nepal

ADDITIONAL INFORMATION

Based in Lalitpur, Nepal. Open to full-time remote, onsite and hybrid opportunities in Nepal.

Languages: English and Hindi (professional working proficiency); Nepali (native).
